

Provisional resolution of the University of Lleida's grants for the requalification of the Spanish university system, for 2021-2023

The resolution of 2nd July 2021 calls for grants for the requalification of the Spanish university system for 2021-2023, of the University of Lleida, in the following categories: Margarita Salas grants, grants for the requalification of university teaching staff and María Zambrano grants.

By order of 2nd September 2021 the provisional list of admitted and excluded applicants from the call of the University of Lleida for Grants for the requalification of the Spanish university system for 2021-2023 was published.

By resolution of 24th September 2021 the definitive list of admitted and excluded applicants, as well as the composition of the Evaluation Commission, of the call of the University of Lleida for Grants for the requalification of the Spanish university system for 2021-2023 was published.

In accordance with the provisions of article 9 of the resolution of 2nd July 2021, this Rectorate resolves:

FIRST: once the Evaluation Commission has been constituted and the evaluation of the admitted applications has been carried out, to publish the provisional resolution of the call of the University of Lleida for Grants for the requalification of the Spanish university system for 2021-2023. Annex 1 contains the provisional list of selected applications, Annex 2 contains the list of reserves and Annex 3 lists the candidates who have not reached the minimum score required. These lists will also be published in the UdL e-tauler.

This publication replaces the individual notification, with the same effects, in accordance with the provisions of article 45.1b) of Law 39/2015, of 1st October, on the Common Administrative Procedure of Public Administrations.

The Evaluation Commission lists in its reasoned report the list of prioritised applications considering 5 areas of knowledge, establishing a minimum of one selected candidate per area and assigning the rest according to the D'Hondt Law.

In the event of resignations or withdrawals, the reserves of the area in which the withdrawal occurs will be substituted. If there are no reserves in that area, they will be substituted by the next selected application in another area, again applying the D'Hondt Law.

SECOND: applicants have a period of ten working days, starting on the working day following the publication of this resolution, to submit their allegations. These allegations shall be submitted through the Electronic Register of the UdL.

Pursuant to Article 112(1) of Law 39/2015, of 1 October, on the Common Administrative Procedure for Public Administrations, no appeal may be lodged against this decision.

Jaume Puy Llorens
Rector of the University of Lleida
